Looking out over Cardigan Bay, Sunnysands Caravan Park is ideally situated to visit the many attractions up and down the Coast.

Sitting between Caravan 437 and 439 on Sunnysands Caravan Park, this 2008 centrally heated and double-glazed accessibility caravan is set on the sea front with ramped access coming from a dropped kerb and double opening patio doors leading onto a very large side and front balcony with outdoor furniture. The caravan is well appointed with access to all rooms via wider sliding doors. The shower cubicle in the bathroom has a slight lip but with left hand transfer being available into the cubicle, on to a fixed shower seat, this would be suitable for many less able visitors needs. The twin beds in the large end bedroom are zip lock and can if requested be pushed together to make a king size. The second bedroom is a single bedroom. The double pull out sofa bed in the lounge is not suitable for persons with disabilities.

Our friendly Reception team encourage anyone interested in visiting who have specialist needs to give us a call to discuss all options available. They can also advise you on the accessibility of the other venues in the park, the club, café, swimming pool building and beach all have ramped access.
