Website: www.sunnysands.co.uk

Looking out over Cardigan Bay, Sunnysands Caravan Park is ideally situated to visit the many attractions up and down the Coast.

Enter up a decked ramp from a dropped kerb onto a large balcony with outdoor furniture and into this 2006 centrally heated and double-glazed accessibility caravan. This caravan is remarkably spacious, set overlooking the beach and is one of four disabled access caravans on the park. This caravan has ample space to move and a stunning view over the sea. There is an electric transfer aid in the main bedroom fixed to the ceiling to assist visitors to transfer from their chair into either of the twin beds. The bathroom is large and easily accessible with plenty of grab handles, a walk-in shower and fixed shower seat. In the kitchen the worktop is lowered so that visitors with disabilities will have their independence. The caravan is well appointed with access to all rooms via wider sliding doors.

As the site has a choice of four caravans for the less able, they ask people wishing to book to call Reception so they can be matched with the caravan which best meets your needs. They can also advise you on the accessibility of the other venues in the park, the club, café, swimming pool building and beach all have ramped access.

37 x 12 - 2 Bed
