Looking out over Cardigan Bay, Sunnysands Caravan Park is ideally situated to visit the many attractions up and down the Coast.

This 2000 budget accessibility caravan is remarkably spacious, set overlooking the mountains and with a partial sea view from the balcony, it is one of four disabled access caravans on the park. There is a manual transfer aid in the main bedroom fixed to the ceiling to assist visitors to transfer from their chair into either of the twin beds. The bathroom is large and easily accessible with plenty of grab handles, a walk-in shower and fixed shower seat. In the kitchen the worktop is lowered so that visitors with disabilities will have their independence. The caravan is well appointed with access to all rooms via wider sliding doors.

As the site has a choice of four caravans for the less able, we ask people wishing to book to call Reception so they can be matched with the caravan which best meets their needs. They can also advise you on the accessibility of the other venues in the park. The club, café, swimming pool building and beach all have ramped access.

37 x 12 - 2 Bed
